"Haiti: The Aid Dilemma," PART ONE:
What Happened to the System?

Below you will see a chart showing the relationship between the four major levels of Haitian rice distribution. For each level, describe how the system worked prior to the earthquake of January 2010.

1. United States (supplier)
   - Describe how the system worked at this level, prior to the earthquake:

2. Tony (large wholesaler)
   - Describe how the system worked at this level, prior to the earthquake:

3. Melissa (micro-wholesaler)
   - Describe how the system worked at this level, prior to the earthquake:

4. Marie-Michelle (street vendor)
   - Describe how the system worked at this level, prior to the earthquake:
In the second chart, describe in the empty cells what problems were presented by the earthquake that disrupted this system.

United States (supplier)

How did the earthquake disrupt the system at this level?

Tony (large wholesaler)

How did the earthquake disrupt the system at this level?

Melissa (micro-wholesaler)

How did the earthquake disrupt the system at this level?

Marie-Michelle (street vendor)

How did the earthquake disrupt the system at this level?
